

## Square No. using serial Monitor

```
void setup()
{
  // put your setup code here, to run once:
  Serial.begin(9600);
  Serial.println();
  float x=7.0;
  Serial.println(sqrt(x));
  Serial.println(sq(x));
}

void loop()
{
  // put your main code here, to run repeatedly:
}
```
